

Agence TOPO

Agence TOPO is a digital-arts artist-run centre whose mandate is to produce and disseminate hypermedia works that explore new narratives and interdisciplinary and intercultural intersections. Its creation, dissemination and education activities, realized in partnership with the art community, contribute to developing the centre's unique disciplinary focus at the intersection of visual arts, literature and new media. The production section is oriented toward the creation of interactive projects for the Web and the stage, artist residencies and training workshops. The dissemination section seeks to explore innovative modes of presentation for original multimedia works through exhibitions, performances, publications and circulation on the website and in local, national and international networks.

Production Centre

Space(s):

Agence TOPO organizes off-site events such as the performance series Sortir de l'écran / Spoken Screen. Since September 2014, a window space located on the ground floor of the De Gaspé Pôle de diffusion space is dedicated to media installations. The window surface is 6 m². and offers a total exhibition space of 8 m².

The production space (150 m²) is located in room 608 of the De Gaspé Pôle de création and is dedicated to the production of hypermedia projects developed by artists with Agence TOPO. This is also a work space for experimentation and learning for artists in residence.
