

# Folie/Culture

Founded in 1984, Folie/Culture is a non-profit organization dedicated to raising awareness and disseminating information about mental health. It organizes events that draw on singular lines of research to promote reflection on painful social issues.

In conjunction with resource groups in the social and mental health domains, and with the support of its diverse network of cultural partners, over the years Folie/Culture has developed a unique approach to raising public awareness.

Concentrating its efforts on places where culture and society intersect, the organization favours innovative forms of cultural expression in its various interventions.

880, rue du Roi, suite 101  
Québec  
Québec
