

Centre for Art Tapes

The Centre for Art Tapes is a not-for-profit, artist-run, charitable organization that facilitates and supports artists at all levels working with electronic media, including video, audio and new media. We provide services to a diverse membership and the general public, which include production facilities, exhibitions and screenings. As well, we provide programs that offer, through training and in-house residencies, opportunities for individuals to engage critically with cultural and social issues. In addition to the suites listed on our website, we offer a Project Room, Electronics Lab and Offline Suite.
