

Centre3 for Print and Media Arts

Centre3 for Print and Media Arts is a not-for-profit, charitable artist-run centre that connects, educates and collaborates with people on local, regional, national and international levels. We are a place for artists to create, produce and exhibit artwork; a platform for artists to engage and empower students through art education; and a space for artists to collaborate with our community in a creative experience.

□Integrating art, education and community, Centre3 helps establish a progressive identity for our community while enriching quality of life through art and culture.
