

Oxygen Art Centre

Oxygen Art Centre is an artist-run, multidisciplinary centre that provides space and programming for artists and the public to engage in the creation, study, exhibition and performance of contemporary art in all disciplines.

The centre's main goals are to stimulate the creation, exhibition and discussion of contemporary art in all disciplines, to stimulate rural cultural development and professional practices among rural artists, to engage in community development through art-based projects, to achieve diversity in all programming and to pay nationally recognized fees and professional rates to all artists.

Fundamental to the regional cultural landscape, Oxygen Art Centre is a rural artist-run centre that nurtures contemporary professional practices while engaging the wider community through multi-disciplinary programming.

Through education, residencies, exhibitions and events Oxygen advances rural cultural development and achieves experimental, accessible and inclusive programming.
