

Void Gallery

Void Gallery is a non-profit screen-print studio and artist-run centre. We support local artists and the local arts community through training, provision of space and equipment, and community-outreach programming. Since opening in 2012, we have worked to create a market for local art that hasn't found a home in Saskatoon's gallery system. We focus on art that is accessible to the general public, including t-shirts and posters. Relationships are at the centre of what we do. In particular, we work with members of underserved communities—including Indigenous peoples, newcomers, and youth—to learn from them and improve our operations and programming in response.

312 Avenue B South
Saskatchewan
